

Carbon Reduction Plan

Supplier name: Eric Group Limited

Publication date: 1st January 2025

Commitment to achieving Net Zero

Eric Group Limited is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024.

Additional Details relating to the Baseline Emissions calculations.

This is our first year of reporting. Whilst we have completed projects in the past to reduce our carbon emissions, we had not recorded the data.

Current Emissions Reporting

Reporting Year: 2023/2024

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0
Scope 2	1.1
Scope 3 (Included Sources)	69.1 The above includes staff commuting, in-work travel and hotels. Downstream Transport: 0 (this is not relevant to our business as we do not sell products that are transported to clients).
Total Emissions	70.17

Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 52.63 tCO₂e by 2029. This is a reduction of 25%.

Carbon Reduction Projects

The following environmental management measures and projects have already been completed or implemented.

- Maintained ISO14001 certification.
- Our office is heated via electricity, gas is not used.
- Rolled out hybrid vehicles in our fleet.
- Implemented a cloud-based project management software Abilo which has reduced paper usage.
- Implemented a “Take Back Scheme” with Crown Paints.
- Using local supply chains.

In the future we hope to implement further measures such as:

- Increase hybrid and electric vehicles within our fleet
- Replace printers with more efficient versions
- Implement an office generated waste separation and recycling project
- Replace lighting with more energy efficient options such as LED/PIR lighting controls
- Explore other “Take Back Schemes”
- Using low carbon materials on our projects where clients’ specifications will allow
- Using FSC certified wood with a full chain of custody on our projects
- Implement a Single Use Plastics Policy
- Recommend water saving fixtures and fittings where not specified by clients

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of the Supplier:

Ovidiu Oprea, Managing Director
